

## Station Officer, Year 0, Grandparented Rates

Arrears on Total Weekly Wage and IFE Qualification Bonuses. In the case of Officers on grandparented rates, this amount will be the inclusion of the officership allowance into the new total weekly wage rates. Due to rounding in the calculations there is a few cents difference between this and the amount claimed back for the Officership allowance (next line).

Officership Allowance claimed back as no longer payable as separate allowance - built into TWW and attracts superannuation now.
