

Millions of your dollars are going up in flames. Tens of millions have been squandered on failed projects and bloated overpaid management, yet for 8 years, not one new fire appliance has made it to a career fire station.

DIRE
EMERGENCY

PETITION

\$838 million—but where is the money going? Management and non-operational staff have doubled since 2017 while firefighter numbers have stalled. You are paying for bureaucracy, not protection.

FOR INQUIRY

Who answers your 111 call? Chronic understaffing is pushing dispatchers to breaking point and forcing emergency centres to close. This is a dangerous gamble with New Zealand's public safety.

INTO FENZ

An empty station cannot protect your family. FENZ is driving down staffing levels, forcing fire stations to close and trucks to respond understaffed. We need boots on the ground.

**SUPPORT THE CALL FOR A
PUBLIC INDEPENDENT INQUIRY**

Please sign this petition to support the call for a public inquiry into whether FENZ has been properly using its funding to ensure that it has the staffing and resources necessary to keep the New Zealand public safe. Scan the QR code to access the petition or visit our website.
