Dear Brian

Further to your letter in relation to the 405 training, we thank you for addressing the Local's concerns regarding the 405 implementation.

With that in mind, the Local sees no reason not to support this, based on the Region's current and known thinking.

We are still concerned that you do not want to train all staff in what you would have us believe is an important risk assessment process, as we consider this method of instruction to be a waste of valuable man-hours that could be utilised to greater advantage.

Yours sincerely
