

Hi there,

My name is Marty Campbell, I am currently a Station Officer on Red Watch, based at Grey Lynn Station in Auckland, and I would like to be your next National Vice-President.

I am currently the Local Secretary for the Auckland, and Northern Branch Secretary sitting on the National Committee.

I have been in the job for over 25 years and throughout that time I have seen some of the bad times and some of the good.

The COVID-19 crisis led to an unprecedented period of uncertainty, however through good communications and flow of information from the NZPFU, enabled our membership to remain informed and aware throughout.

Informing and making our members aware of what is happening and where we are going as a Union is something that I want to ensure continues into the years ahead. Working with the President, Secretary and the National Committee to improve this, will be one of my priorities.

Eventually COVID will be behind us, the country will be vaccinated, the world will begin to open up again, and a new normality will arise. However, we will still have more restructuring and tranche decisions on our organisational structure ahead of us all. It seems that change will also be the predominant norm for a while in our proud organisation.

It is imperative that we continue to put pressure on FENZ ensuring that the views of union members are heard loud and clear. This pressure begins at the Local, feeds through to the Branch, the National Committee, and finally the National Council.

I believe that a strong united union is down to its members being informed, engaged, and active in union matters in the workplace.

During my time as Local and Branch Secretaries I have endeavoured to keep members informed and aware of current issues, encouraging engagement where possible through notices to members, Facebook postings, emails and countless phone calls.

I see the role of the Vice President as working with and supporting the National President and Secretary forming a strong cohesive team. This team is there to lead and support the National Committee, listen to their views and concerns from the membership and respond accordingly.

We are all a team of union members, from around the Regions, working together to better the lives of other union members.

If anyone has any questions, I'm available on 021-292-7729 and FACEBOOK Messenger, (and frequently on the NZPF Lobby Group 😊 )
